Profile

A graduate of Information Systems from UIN Imam Bonjol Padang, Familiar with UI/UX design, Figma, WordPress, Bootstrap, front-end development, GitHub, and basic programming. Experienced in website development and academic research focused on data mining using Python. Highly motivated to learn and adaptable to new environments.

Education

Bachelor of Information Systems — UIN Imam Bonjol Padang **Sept 2021 – Oct 2025**

GPA: 3,65

- **Final Project:** *Implementation of the FP-Growth Algorithm for Association Pattern Discovery in Hadith Narrators Data*
- **Supervisor:** Domi Sepri, M.Kom

Teaching Assistant — Web Programming Course **Apr 2024 – Sept 2024**

- Assisted students in understanding front-end and back-end concepts using HTML, CSS, JavaScript, and PHP, resulting in improved project completion quality and class engagement.

Internship Experience

Intern, Department of Communication and Informatics (Diskominfo) of West Sumatra | Padang, West Sumatera **Jan 2024-Feb 2024**

- Collaborated in a team to design and improve user interfaces using Bootstrap and WordPress.
- Assisted in developing and maintaining government websites and content management systems.
- Supported the digital information team in updating public service content and optimizing website performance.
- Participated in regular coordination meetings to discuss project progress and system improvement ideas.
- Gained hands-on experience in front-end development, UI/UX design, and web deployment.

Projects

Static Website Development – Civil Engineering Laboratory, Institut Teknologi Padang (ITP) | Personal Project **Apr 2024-May 2024**

- Developed a static website using HTML, CSS, and Bootstrap as the main dashboard for the Civil Engineering Laboratory of ITP.
- Collaborated and communicated directly with stakeholders to identify content needs and design layout based on their requirements.
- Provided recommendations on website structure and information hierarchy for better usability.
- Hosted the website on GitHub Pages and created a manual book for periodic updates and maintenance. | <https://labortekniksipilitp.github.io/laboritp.github.io/index.html>

Skills and Abilities

Hard Skills

- **UI/UX Design:** Proficient in designing user-friendly and visually appealing interfaces using **Figma** and **Canva**.
- **Web Development:** Experienced in **WordPress**, **Bootstrap**, and **GitHub** with intermediate skills in **HTML**, **CSS**, and **JavaScript**; successfully developed and deployed a static website for the Civil Engineering Laboratory – Institut Teknologi Padang.
- **Programming:** Familiar with **Python**, **PHP**, and **SQL** for basic data processing and logic implementation; applied Python for data mining and association rule visualization in final project.
- **Data Analysis:** Skilled in **Microsoft Excel** and **Python** for data preprocessing, pattern identification, and visualization; experienced in implementing the FP-Growth algorithm for association pattern discovery.
- **Database Management:** Basic understanding of relational databases, data manipulation, and schema design using **MySQL** and **SQL-based tools**.
- **Version Control:** Familiar with **Git/GitHub** for project collaboration, version tracking, and deployment workflow.
- **Research & Documentation:** Able to structure research reports, analyze findings, and prepare academic documentation based on data-driven insights.
- **Computer & Office Tools:** Proficient in **Microsoft Office (Word, PowerPoint, Excel)** for report writing, presentation design, and project documentation.

Soft Skills

- **Communication & Teamwork:** Strong interpersonal communication skills with experience collaborating in team-based web projects and research activities.
- **Customer Service:** Experienced in assisting users and clients with responsive support and technical guidance.
- **Adaptability:** Quick to learn new tools and technologies; able to work under dynamic environments and tight deadlines.
- **Problem-Solving:** Capable of identifying issues in systems, workflows, or data and proposing logical, structured solutions.
- **Critical Thinking:** Experienced in analyzing research data, evaluating findings, and making data-backed decisions.
- **Time Management:** Able to prioritize tasks, meet deadlines, and manage multiple responsibilities effectively.
- **Attention to Detail:** Careful in reviewing data, design components, and code to ensure accuracy and consistency.
- **Work Ethic & Responsibility:** Reliable, disciplined, and consistent in completing assigned tasks and project deliverables.

Professional Course and Training

- **HP LIFE — Data Science and Analytics (2026)**
- **HP LIFE — IT for Business Success (2026)**
- **Cisco Networking Academy — Introduction to Packet Tracer (2023)**
- **Cisco Networking Academy — Networking Essentials (2023)**
- **Cisco Networking Academy — Networking Basics (2023)**
- **Cisco Networking Academy — Networking Devices and Basic Configuration (2023)**
